DETAILED ACTION

Drawings

1. The drawings were received on January 3, 2007. These drawings are approved.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: This flame retardant cable comprising an inner insulation layer surrounding the conductor and an outer insulating layer surrounding the inner layer, wherein the insulated conductor has a composite dielectric constant less than or equal to 2.6 and a composite dissipation factor of less than or equal to 0.005 (claims 1 & 2). The above stated claim limitations, in combination with other claim limitations is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments filed January 3, 2007 have been fully considered and they are persuasive. Specifically, the applicant argument that "There is no teaching how to

provide a dual-layered insulation with the flame retardance properties in both insulation layers and electrical properties required for plenum cables as claimed in claims 1-2" is persuasive and therefore the claims have been allowed.
